

Welcome to FF Thompson Hospital,

Before you begin your review of our Magnet documents, we have a few navigation tips to help you on your electronic journey:

1. Click on the top color-coded tabs to navigate between the Magnet Components (Organizational Overview, Transformational Leadership, Structural Empowerment, Exemplary Professional Practice, and New Knowledge and Innovations).
2. We have provided two ways to navigate the site. a.) A navigation menu drops down from each tab across the top providing access to each page within that component section. b.) Every page contains a left side bar navigation to access Sources of Evidence under each component letter/number (for example, TL1, will be listed on the left under the Transformational Leadership tab).
3. All linked documents and exhibits are in PDF format and highlighted in blue. To enlarge your view of an exhibit or supporting document, click on the + or – to zoom in or out within your Adobe Reader.
4. Some exhibits are large and may take a moment to open depending on your computer. It may decrease the amount of time for the file to open if you close any unnecessary programs.
5. We have provided a glossary of Thompson-specific terms used within the document. It is available via the labeled tab at the top of the site.

6. Policies and Procedures

In reviewing our policies and procedures, please note that the current “last review date” or “origin/dated” listed at the end of the document is not necessarily the last time the document was reviewed. In our Policy and Procedure Program, the owner of the document logs in and if no changes are made to the policy, it is logged, but not updated on the actual published policies (please see examples below).

Committee Review: Medication Safety Committee; Pharmacy & Therapeutics Committee
Joint Commission: Medication Management
